Current Issues in Planning and Zoning

Friday, August 12, 2011

9 am to 12 pm

Center for Government Services

Room 600-B

303 George Street, New Brunswick, NJ

This session is intended for planning board/zoning board secretaries, land use administrators, and zoning officials who hold a Rutgers certificate. Three CE credits toward certificate renewal will be awarded automatically to those who attend.

Municipal Regulation of Wind and Solar Powered Facilities

New Jersey is at the forefront of renewable energy development in the United States. Legislative action and policy development at the State level include the Solar Advancement Act of 2010, the Governor's 2011 Draft Energy Master Plan, and the Board of Public Utilities' incentive programs. But, renewable energy installations are not without controversy. What should a municipality be doing to effectively manage this type of development? What changes to master plans and zoning ordinances should municipalities be adopting NOW in order to be prepared for the FUTURE?

Join Paul Gleitz, PP/AICP, from Heyer, Gruel & Associates and Henry T. Chou, Esq., from Hill Wallack, LLP, Attornies at Law to explore these issues.
